

## **Position: Transportation Project Manager – Federal Projects**

*Typical duties of this position will include, but not be limited to:*

- Preparation of Phase I Project Development Reports for federally funded (STP, CMAQ, ITEP and HBP) projects;
- Preparation of Phase II documents for federally funded (STP, CMAQ, ITEP and HBP) projects including roadway, intersection, bridge, parking lot and bicycle path design;
- Miscellaneous transportation and drainage studies, reports, and grant applications;
- Prepare for and attend Public Involvement efforts;
- General transportation engineering, client service, and business development.

### **Requirements:**

This position requires a 4-year degree in Civil Engineering with a minimum of 7 years experience in transportation engineering including roadway, drainage and MOT design. Ideal candidate will be a PE with federally funded Phase I and Phase II experience in the State of Illinois.

In addition, the ability to work in a team environment on engineering and planning tasks and strong written, verbal, computer and organizational skills are required.
